

Sierra Outdoor Hearth & Fire Pits

What could be more enjoyable than sharing a warm glowing fire with good friends, family, or that special person. Sierra offers fire-pit components for both gas and wood burning pits. Using our design engineered components allows for both simple or complex outdoor fire features including fire pits, fire walls, mixed planter and fire features, and many other outdoor architectural designs.

SPI has provided thousands for stainless and heavy duty steel burners for this market over the last 10 years and are sold through specialty retail, masonry, building material yards, and outdoor landscape contractors. Please contact us for specialty design burns or have your contractor or yard request a custom quote!

Outdoor Campfire Logs and Fire-ring Components

Enjoy a custom fire-pit constructed using local materials and SPI's proven fire-rings, H-Burners, Straight Burners, or Combination Curve Burners. Fire-ring components are manufactured in five different shapes and designs are available in a broad range of sizes. Utilizing either heavy duty high carbon steel tubing or 304 series stainless steel all are Made in the USA. Check with local codes for fire-pit and or fire feature requirements. SPI provides simple match-light natural and propane gas kits along with battery powered igniter kits. The finishing touch to your fire-pit is a set of natural looking, hand crafted, premium Campfire or Bonfire Ceramic Logs.

Sierra Campfire Outdoor Logs

Natural and Realistic look of a outdoor campfire without the hassles of a wood fire. High Quality Poured Ceramic Logs and Multi Color High Temperature Finish generate a classic seasoned look and are Made in the USA.

Fire Double Ring Fire Single Ring Fire Star Ring

Randomly stacked on top of an outdoor fire-pit featuring an SPI's fire-ring, the Sierra Campfire is available in three sizes including Campfire, Bon-Fire, and Grand Bon-Fire. All Sierra Campfire Ceramic Logs are the perfect addition to any back yard!

Sierra Outdoor Fire Feature Accessories

SPI provides natural and propane gas connection kits, gas regulators, and battery powered igniter kits for small and medium BTU installations. It is important to check local building codes while planning your construction or installation. Don't forget the finishing touch to your fire-pit is a set of natural looking, hand crafted, premium Campfire or Bonfire Ceramic Logs.

EasyChef Premier Outdoor Cooking Systems

Sierra Product's offer one of the lowest price points in domestic manufactured SS gas grills. EasyChef's chassis and critical components are constructed of a commercial quality T04 stainless steel. Fully welded construction guarantees years of trouble free operation and includes a 3,5,7 Year Limited Lifetime Warranty. Head and carts are fully assembled in the box. Available in two sizes, the EC24 with 488 sq. inches total cooking area and the EC30 with 638 sq. inches total cooking area. Both models can be ordered with a rear rotisserie burner, and EasyChef unique design and constructed entirely of stainless steel. Available in LP or Natural Gas. Perfect for legacy grill replacement, EasyChef's can replace old Turbo and FireMagic grill installations.

Drop In Replacement for Legacy Grills
Fire Magic, Barbeques Galore, and many others.

Sierra EasyChef Grilling System - EEGS
Designed to provide quick, balanced heat and grilling surface temperatures over a wide operating range.

Stainless Steel Cooking Grids and Warming Rack
Welded 304 stainless steel rod, the optimum cooking surface. Both the EC30 and EC24 provide generous cooking areas. Limited lifetime warranty.

Self Cleaning Ceramic Briquettes
Minimizes flare up and maximizes heat distribution by absorbing and radiating heat evenly across the cooking surface.

Rotary Ignition
A multi spark igniter will start your grill quickly and easily, just like your kitchen stove. It comes with a longer than normal 3 year warranty and requires no batteries.

Built Thermometer
Your assistant for reliable temperature control.

Multiple Installation Flexibility
A full range of installation options, select the one that best suits your needs.

Optional Accessories
Side Burner, Easy Smoker Tray, Rotisserie Kits, Covers and Griddle.

Mounting Options including Legacy Built-in's
With a full range of installation options, select the one that best suits your needs. With just a few nuts and bolts an EasyChef grill head can easily be installed into an island or on a cart. For legacy grill replacement, EasyChef's can replace old Turbo's, FireMagic, and many other legacy grill installations.

EasyChef Charcoal & Wood Outdoor Cooking Systems

Offering quality features and economy, the EasyChef Charcoal Built-in Series grills are constructed of rugged heavy duty steel and finished with a high temperature coating. Each grill includes a Vari-Lift that raises and lowers the charcoal for cooking heat adjustment with just a turn of the handle. For additional value and added life, the ECC Units include as standard stainless steel cooking grids. Available in both Counter Top and Front Load models the ECC units fit both standard 24" and 31" openings. Optional features include Stainless Steel Hood, Warming Rack, and Rotisserie Kit.

Drop In Replacement for Legacy Grills
Fire Magic, Barbeques Galore, and many others. Easy to replace the older grills in island and masonry construction.

Heavy Steel Construction
Manufactured from plate steel, the EasyChef chassis will provide years of service.

Vari-Lift System
Allows for raising and lowering of charcoal tray to control temperature. Easy turn handle makes for quick adjustments.

High Temperature Finish
Quality coating adds overall value and protection.

Stainless Steel Cooking Grills and Warming Rack
Welded 304 stainless steel rod, the optimum cooking surface. Both the ECC30 and ECC24 provide generous cooking areas. Limited lifetime warranty.

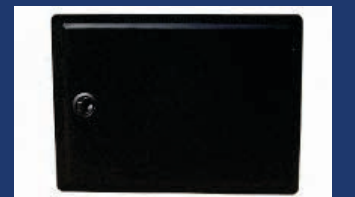

Optional Painted & Stainless Steel Hoods and Rotis
These options add value to your built-in by providing balanced heat and baking. Rotis options expands your cooking opportunities to Rotisserie prepared foods.

Park Barbecue - ECC20
The Park Barbecue offers a simple low maintenance solution to charcoal grilling. Heavy steel cooking grid is adjustable and the frame is finished in high temperature BBQ black for easy touch up. All the EasyChef Charcoal Series grill deliver maximum value!

Heavy Steel Construction
Manufactured from plate steel, the EasyChef chassis will provide years of service.

Adjustable Cooking Height
Slotted chassis makes adjusting the grid's height a snap.

Mounting Options
In-ground post or patio base make this one of the easiest charcoal grills to install.

There is a critical difference in the properties of liquid propane gas (LPG) and natural gas (NG). For your safety, it is highly recommended that local building codes be checked before beginning your construction.
